PROFESSIONAL SUMMARY

Frontend Developer with 1+ year of professional experience building responsive and user-focused web applications using React.js, JavaScript, Tailwind CSS, and REST APIs. Developed 15+ responsive client websites and reusable UI components, with hands-on experience in performance optimization, responsive design, and cross-browser compatibility. Improved Lighthouse Performance scores from 75+ to 95+ through frontend and asset optimization. Experienced in collaborating with designers and QA teams to deliver clean, maintainable, and high-quality web experiences.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3, PHP

Frontend: React.js, React Router, Tailwind CSS, Responsive Design

State Management: Redux Toolkit, Context API

APIs: REST APIs

CMS & Platforms: WordPress, Webflow

Tools & Design: Git, GitHub, Vite, VS Code, Figma, Canva

Other: SEO Basics

WORK EXPERIENCE

Frontend Developer

Ujjwal Technolabs | May 2025 – July 2026

- Developed and maintained 15+ responsive client websites using React.js, JavaScript, and Tailwind CSS.
- Converted Figma designs into responsive and reusable React.js components using Tailwind CSS.
- Built reusable and maintainable UI components, improving development efficiency and consistency across projects.
- Improved Lighthouse Performance scores from 75+ to 95+ through frontend and asset optimization.
- Optimized website loading performance by reducing unnecessary assets and improving frontend implementation.
- Collaborated with designers to implement UI improvements, resolve issues, and deliver responsive web experiences.
- Ensured cross-browser compatibility and responsive layouts across different screen sizes and devices.

Frontend Development Intern

FunctionUp | Nov 2024 – March 2025

- Developed responsive web pages using HTML5, CSS3, JavaScript, and Tailwind CSS.
- Worked on website customization and frontend optimization tasks to improve usability and responsiveness.
- Followed industry-standard frontend development workflows and version control practices using Git and GitHub.
- Collaborated with team members to implement UI improvements and resolve frontend bugs.

PROJECTS

Resulyze AI – Smart Resume Analyzer

Tech Stack: React.js, JavaScript, Tailwind CSS, AI API

Live Demo: resulyze-ai-six.vercel.app | **GitHub:** github.com/nagarshubham211-png/Resulyze-AI-

- Developed an AI-powered resume analysis platform using React.js and JavaScript.
- Implemented resume analysis features including resume scoring and keyword recommendations.
- Built interactive dashboard components to present analysis results in a clear and user-friendly format.
- Developed responsive UI components using Tailwind CSS for different screen sizes.
- Focused on usability, performance, and an efficient resume analysis experience.

Admin Dashboard Web App

Tech Stack: React.js, JavaScript, Tailwind CSS, Recharts

Live Demo: ai-saa-s-admin-dashboard-yzz1.vercel.app | **GitHub:** github.com/nagarshubham211-png/AI-SaaS-Admin-Dashboard

- Developed a responsive admin dashboard with analytics and data visualization using React.js and Recharts.
- Implemented interactive charts, tables, and dashboard components for presenting data effectively.
- Built a responsive sidebar navigation and reusable UI components for maintainability.
- Designed clean and responsive layouts to provide a consistent experience across devices.

Cartify – E-Commerce Web Application

Tech Stack: React.js, JavaScript, Tailwind CSS, Context API, React Router

Live Demo: cartify-phi-livid.vercel.app | **GitHub:** github.com/nagarshubham211-png/Cartify

- Developed a responsive e-commerce web application with a clean and user-friendly interface.
- Implemented product listing, filtering, and add-to-cart functionality for a smooth shopping experience.
- Managed global application state using Context API for cart-related functionality.
- Built reusable and responsive UI components using React.js and Tailwind CSS.
- Optimized the application for consistent performance and responsiveness across different screen sizes.
